

FREE PRODUCT TRAINING

Learn About the Newly Approved AeroFin

Earn 2.0 CEU's. Lunch Included.

When: Wednesday, April 10, 2024, 11AM-1PM

Where: Northern Maine Community College – Edmunds Conference Center
33 Edgemont Drive, Presque Isle, Maine

AeroFin is a combined treatment and dispersal system for residential wastewater that is designed to occupy minimal space. **Attendees will receive two (2) continuing education credit hours and an AeroFin design and installation certification upon completion.** The presentation will be divided into two parts: a classroom session and a hands-on session at Aroosta Cast, Northern Maine's Pre-Cast Center, where all attendees will be able to participate in an installation rain or shine, so please dress accordingly. **Lunch will also be provided!**

Scan code to the right or visit <https://qrco.de/belsbh> to register.

Please reach out to Dennis or Kathy for any additional information or assistance with registration. We look forward to working with you to incorporate these products into your upcoming system designs, installations, and inspections!

Scan code above or visit <https://qrco.de/bem4jL> for product information.
